

Changing Your City's Charter and/or School Board Policies

You will need to amend your city's charter to allow for non-US citizen voting in local elections. If your city council and/or school board does not take the lead in forwarding an amendment to allow non-US citizens to vote on local issues

or run for local office, you can turn in a citizen's petition with the question to be added to the ballot.

EDUCATING YOUR RESIDENTS: Since your quest for a charter change must be approved by the voters in your town, you should hold educational programs to answer questions and concerns.

THE LEGISLATIVE PROCESS: If the ballot question passes, it will be sent to the state for approval by the Vermont Legislature and Governor.

REGISTERING NON-US CITIZENS TO VOTE: Once the state approval process is complete, your city can register non-US citizens to vote and/or run for office.

The League of Women Voters of Vermont will help any community interested in securing voting rights and representation at the local level for non-US citizens. Contact us at league@lwvofvt.org.

Non-US Citizen VOTING in Vermont

"Non-US citizen," "non-citizen," "all resident," and "legal resident" voting is not new in the United States. While non-US citizens are prohibited from voting in federal elections, federal law does not address state or local elections.

At its 2023 Convention, the League of Women Voters of Vermont adopted a position on non-US citizen voting.

"The League of Women Voters of Vermont supports the inclusion of non-US citizens residing in Vermont municipalities, in some of our local democratic processes, at municipal, school district, and special district level (i.e., solid waste, water, etc.)"

LWVVT will now monitor non-US citizen voting in Vermont and across the country, give educational presentations, register non-US citizens in Vermont cities that have completed the process of securing immigrant voting rights, and assist individuals and groups interested in pursuing non-US citizen voting for their communities.
